

Frame #1

Officer Lopez arrives at a domestic abuse call and finds evidence of narcotics trafficking. She requests an expedited warrant. After receiving the warrant, she enters the home to collect evidence.

Frame #2

Officer Lopez assesses the scene and is at a loss. She is worried she might miss key evidence or not collect it in a way that will hold up in court.

Frame #3

Officer Lopez just wants to do her job the best she can and provide the legal system with uncompromised evidence. She also knows that state law changed recently, making it even more confusing.

Frame #4

She remembers the Digital Evidence Expert application that walks her through digital evidence collection step-by-step, based on device type. The application is always up-to-date with the latest technology and device types, and is CalECPA compliance.

Frame #5

She uses the application to visually identify the device that she is trying to collect digital evidence from. The application gives her the confidence she needs to do her job and collect the evidence in a court compliant manner.

Frame #6

The digital evidence Officer Lopez collects is admissible in court. It provides the judge and jury with the confidence that they need to administer justice while upholding constitutional rights and adhering to California State law.
