

AssistInt

Practice interviews out loud with an AI that talks back

R. Myo, L. Segovia, R. Osorio, A. Ronce, I. Santhosh

The Problem

- Good interview practice is hard to get
 - Limited or costly
- Don't focus on specific fields
- Reading tips $\neq$ speaking under pressure
- Feedback is inconsistent or sugar-coated

Our Solution

Meet Maya!

- AI Interview assistant
- Natural back and forth conversation
- Accessible 24/7
- Tailored to your field of interest
- English and Spanish

How it Works

Step 1: Set Up

- Pick your field, role, difficulty, and interviewer intensity.
- Add your resume and the job description

Step 2: Interview

- Live voice conversation
- Adaptive follow-up
- Real-time transcript on screen

Step 3: Feedback

Has a scored report:

- Strengths
- Areas to improve
- A per-question breakdown

Session summary

Your score reflects how well your answers covered expected concepts, reasoning, communication, and follow-ups.

👍 Strengths

- You answered 6 of 6 questions and kept the interview moving.
- Your strongest response was "A student in your class is disruptive and refuses to participate. How do yo...", especially its treatment of private conversation and understand root cause.
- You used concrete examples in 1 answer, which made your points more credible.

🔗 Improve next

- For "What is a lesson plan and what are its key components?", review procedure/activities and differentiation and practise connecting them in one response.
- For "How would you engage a student who seems bored and unmotivated in your class?", review positive reinforcement and one-on-one check-in and practise connecting them in one response.
- Add specific examples to more answers, explaining what you did and what changed as a result.

7

QUESTION 5

Describe how you would create an inclusive classroom environment.

Your answer

i would aim to create a classroom where every student feels respected valued and safe i would encourage participation from everyone use learning materials that represent different cultures and backgrounds establish clear expectations for respectful behavior and create opportunities for students to work together and learn from one another

What worked

- Respect for diversity
- Representation in materials
- Student voice

What to strengthen

- Anti-bullying strategies
- Accessible resources

Interviewer feedback

There was a valid point around respect for diversity and representation in materials, but it needed more development. Strengthen it by explaining anti-bullying strategies and accessible resources and adding a specific situation or example.

Suggested approach

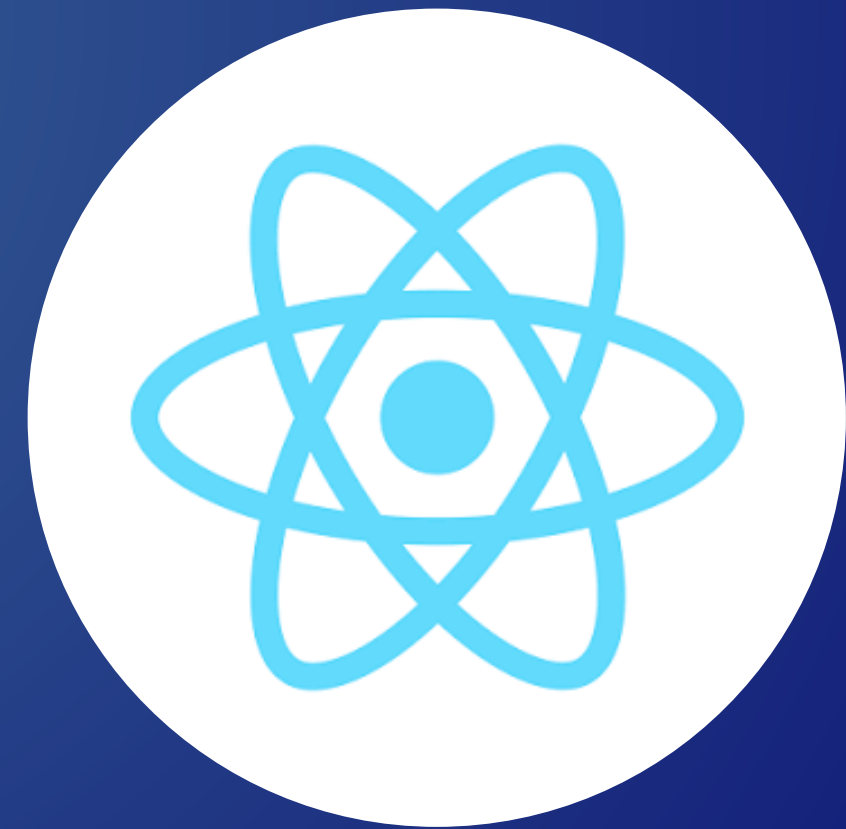

Use a brief situation–action–result structure. Choose an example that demonstrates respect for diversity, anti-bullying strategies, representation in materials and student voice.
